

MERSEN APPLICATION SNAPSHOT: WHOLE-HOUSE SURGE PROTECTION

APPLICATION

Houses, apartments, mobile homes, and dorms are full of electronic equipment. Think about the expensive and important electronics in your home. Wouldn't it be nice to know that your investments are safe and protected from lightning strikes or other sources of voltage surges?

- Television
- Home Entertainment System
- Smart Home Equipment
- Kitchen Appliances
- Washer & Dryer
- Air Conditioner
- Security System

PRODUCT OVERVIEW

Mersen's Surge-Trap® STXH surge protective device adds a critical layer of surge protection for your entire home. From your family room to your office, and your kitchen, your entire electrical system is protected. This simple whole house solution is installed at your load center – out of sight, out of mind.

Featuring Mersen's industry leading TMOV® Technology inside, Mersen's Surge-Trap® SPDs meet the rigorous safety requirements of the UL 1449 4th edition safety standard and need no additional overcurrent protection.

SOLUTIONS

Whole-house surge protection is a small investment that can protect your big investment in electronics and automation! Mersen's STXH SPD is mounted directly onto your electrical panel and protects your electronics in case of a voltage surge or lightning strike.
