PRODUCTS

ARC FLASH PPE

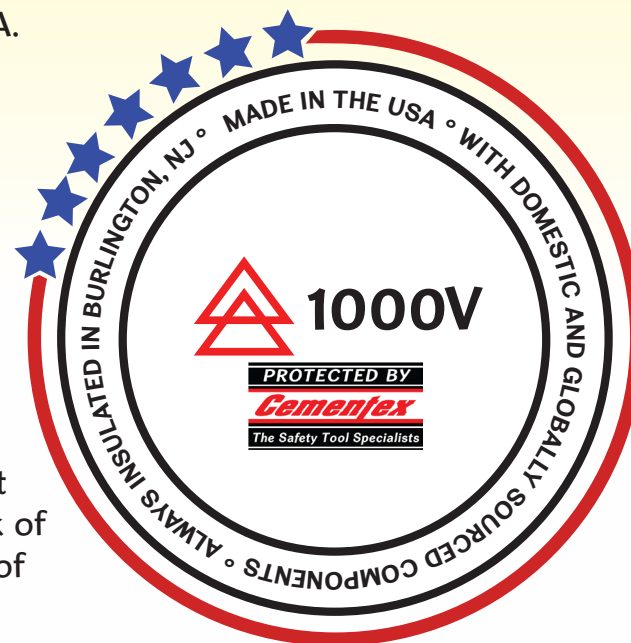

Who: A Family owned and operated American company that is the oldest insulated tool manufacturer in the USA.

What: Cementex only produces equipment designed for qualified persons working on or around energized equipment. It's our specific focus on safety and innovation that truly sets us apart.

When: Established in 1953; we continue to manufacture the highest quality equipment in the industry. Good habits die hard.

Where: Located in Burlington, NJ; we provide equipment for safety professionals all over the world. Our network of representatives provide local support to our hundreds of stocking dealers. We may be in Jersey but we're also in your backyard.

Why: Because it's the right thing to do AND we're really good at it. We have been building and designing safety long before the government said "you have to". Some look to "comply", we strive to "protect". The choice is up to you.
